## 1. Introduction

The platform will offer online Doctors consultation and Diagnostics services. The HalloDoc platform, also known as a health-care website, serves as a valuable tool for doctors to enhance patient care and streamline their work processes. It offers a user-friendly interface that simplifies various tasks for doctors. They can conveniently access patient records, efficiently manage appointments, and securely communicate with their patients. Additionally, patients can utilize the website to request care for themselves or on behalf of others. The platform accommodates three types of users: Admin, Physician, and Patients. The Admin user has comprehensive access to patient and physician records, enabling them to review patient history, manage cases, and exercise control over requests by canceling or blocking them when necessary.

### Platform login page

#### Description:

This page will appear when user lands on the platform. This page will have a banner at left side and login section at right side.

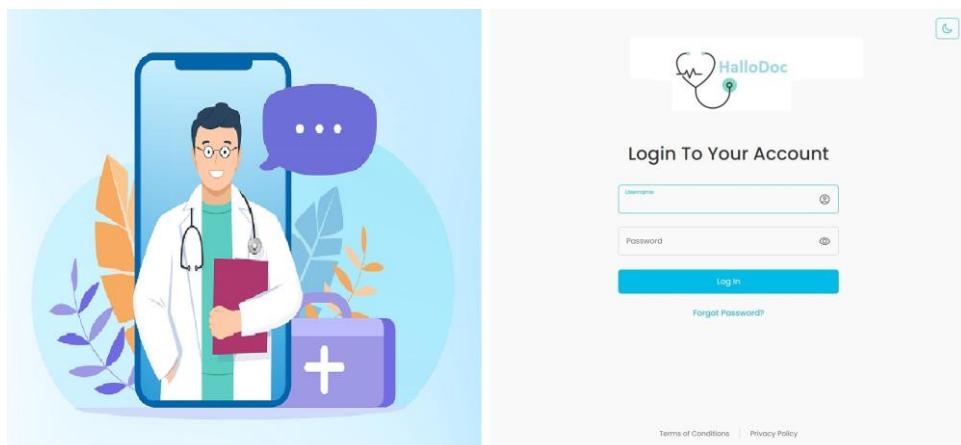

Fig1. Platform login page

#### Description:

User can login to platform using their email address and password.

#### Features:

#	Feature	Type	Description
	Email address	Input	User will need to enter his email address in this text box.
	Password	Input	User will need to enter his password in this text box.

	Login	Button	After entering correct email address and password, clicking on this button will allow user to sign in to the platform.
	Forgot password	Link	If a user forgets his or her password, he or she must select "Forgot password?"
	Footer links	Link	It will display links to pages such as Terms of condition and privacy policy.

## Forgot Password

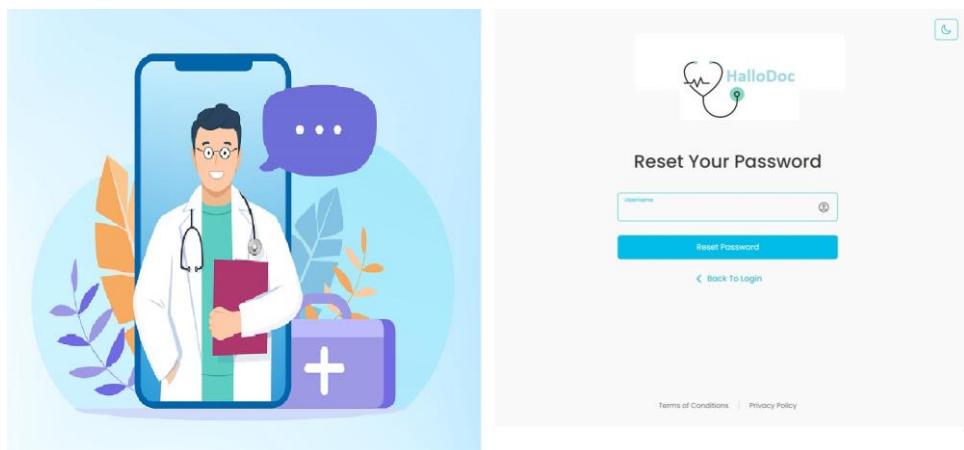

Fig2. Forgot Password

### Description:

Users who have forgotten their password may request it by entering their email address. System will check their email address existence, if it exists then reset password link will be sent to their email address. Reset password link will expire in 24 hours.

### Features:

#	Feature	Type	Description
	Email address	Input	User will need to enter his email address in this text box.
	Reset password	Button	Clicking on this button, system will check if entered email address exists or not in platform. If it exists then Reset Password link will be sent to this email address.

	<a href="#">Back to Login</a>	<a href="#">Link</a>	Clicking on this link will redirect user back to login page.
--	-------------------------------	----------------------	--

## Reset Password

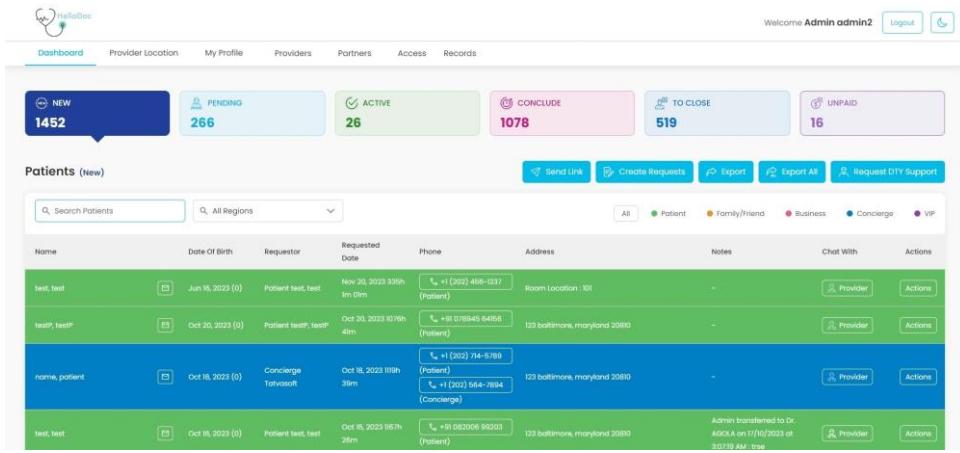

### Description:

User will receive a link for this page via email when requested through forgot password page. When Page is loaded Link will be checked for expiration.

### Features:

#	Feature	Type	Description
	Password	Input	User will need to enter new password.
	Confirm Password	Input	User will need to confirm the new password
	Reset	Button	Clicking on this button, User can reset their password.

## 2. Admin Dashboard:

The screenshot shows the Admin Dashboard interface. At the top, there are several status indicators: NEW (1452), PENDING (266), ACTIVE (26), CONCLUDE (1078), TO CLOSE (519), and UNPAID (16). Below these are buttons for 'Send Link', 'Create Requests', 'Export', 'Export All', and 'Request DIY Support'. The main area is titled 'Patients (New)' and contains a table with columns: Name, Date Of Birth, Requestor, Requested Date, Phone, Address, Notes, Chat With, and Actions. The table lists several patient entries, each with a 'Provider' and 'Actions' button. A message at the bottom right states: 'Admin transferred to Dr. Alice A on 11/6/2023 at 3:02:19 AM. tribe'.

Fig3. Admin Dashboard

### Description:

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

Once the login is successfully completed, the Admin will be automatically directed to the platform's landing page, which will showcase the patient requests. The Admin will have the ability to filter the requests based on their request type and search for specific requests using the patient's name or the name of the requestor. On desktop devices, the requests can be viewed in a grid format, while on mobile devices, a card view will be provided for optimal display.

#### Features:

#	Feature	Type	Description
	NEW	Button	Clicking on this button, Admin can view all the newly created patient requests.
	Pending	Button	Clicking on this button, Admin can view all patient requests which are accepted by provider and patients who do not have accepted the agreement.
	Active	Button	Clicking on this button, Admin can view all requests for which patients have accepted the agreement or providers has choose House-call for providing the care.
	Conclude	Button	Clicking on this button, Admin can view all requests for which providers have completed their service from their side.
	To close	Button	Clicking on this button, Admin can view all requests which are ready to close.
	Unpaid	Button	Clicking on this button, Admin can view all requests which are unpaid by patients.
	Send Link	Button	Clicking on this button, Admin can send link to patients for creating a request via email and SMS.
	Create Request	Button	Clicking on this button, Admin can create a request on behalf of the patient.
	Export	Button	Clicking on this button, Admin can export an Excel file of the patient requests of current request state and current page or filtered requests.
	Export All	Button	Clicking on this button, Admin can export an Excel file of all the patient requests.
	Search Patients	Input	Admin can search patients by patient name, requestor name

#### Admin dashboard in New state:

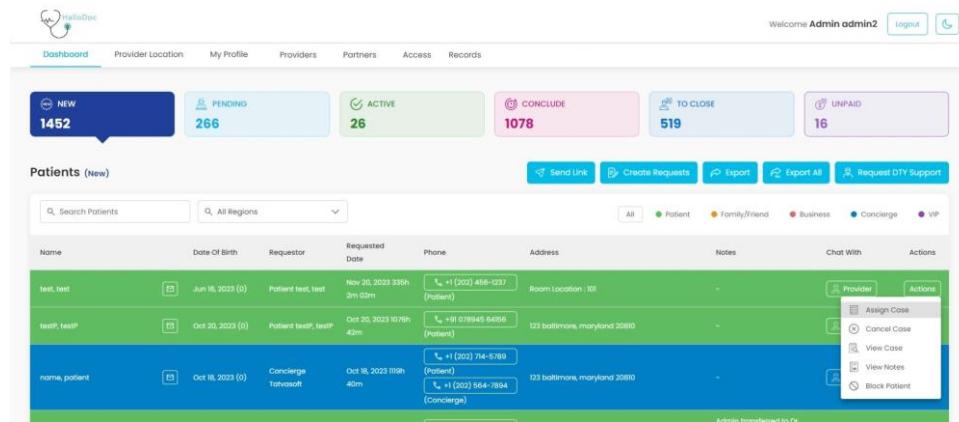

Fig4. Admin dashboard in New state

#### Description:

The landing page will exhibit all recently created requests. Initially, when patients generate a request, those requests will appear in the "New" state on the Dashboard.

#### Admin dashboard in pending state:

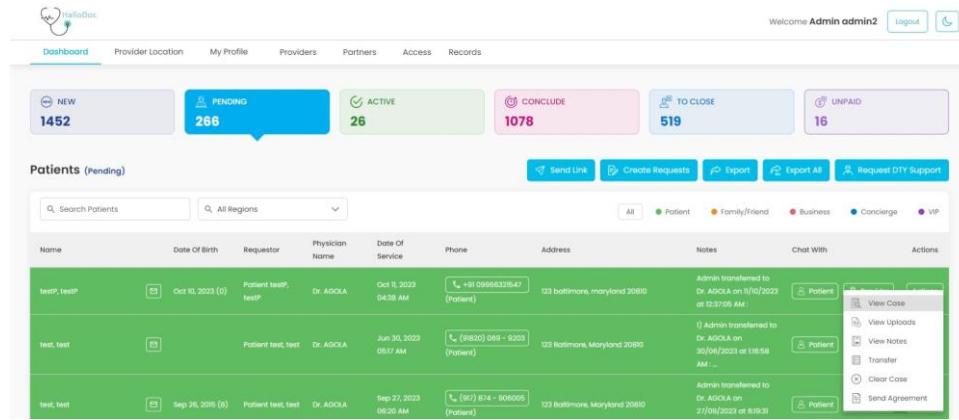

Fig5. Admin dashboard in pending state

#### Description:

The page will show patient requests that have been accepted by providers or are still pending the acceptance of the service agreement by patients. When providers accept a patient request, they are required to send an agreement video link via email and SMS to the patient's email address and phone number. Once the patient accepts the agreement, their request will transition from the "Pending" state to the "Active" state.

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

## Admin dashboard in Active state:

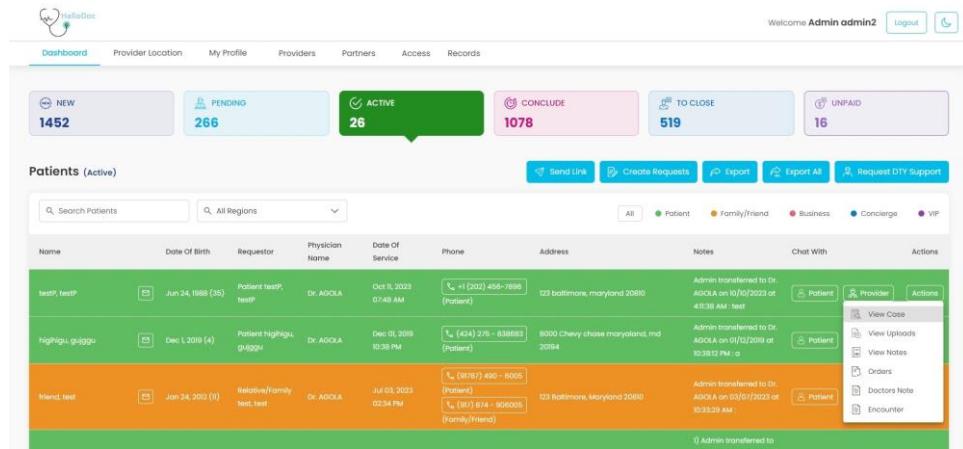

Fig6. Admin dashboard in Active state

This page will display patient requests for which patients have accepted the service agreement and provider is giving service to the patient. Once the request is transferred into active state providers can start medical care for the patients.

## Admin dashboard in Conclude state:

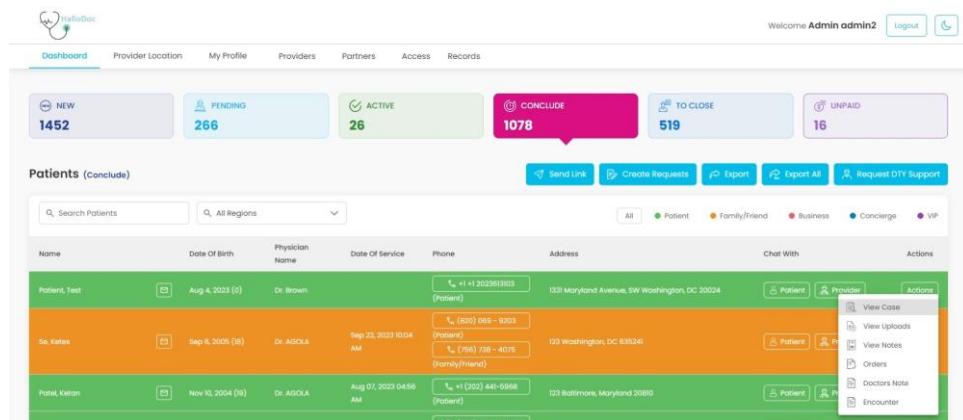

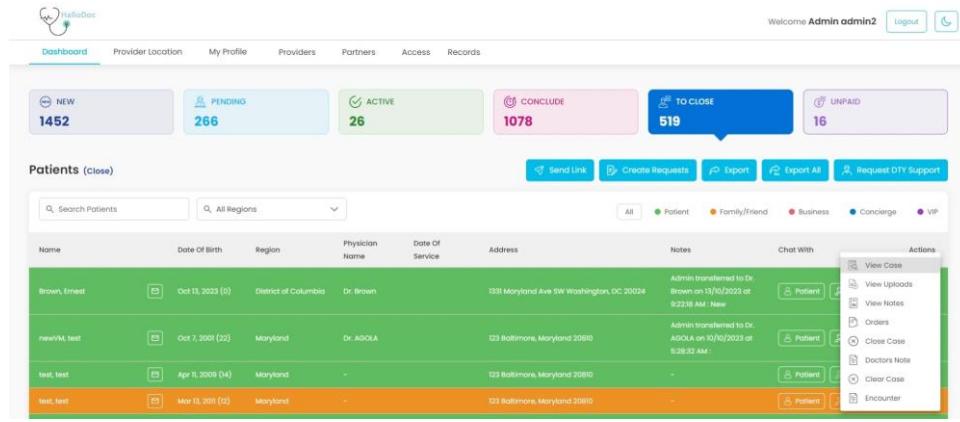

Fig7. Admin dashboard in Conclude state

This page will display patient requests for which medical is completed by the provider. Once the request is transferred into conclude state providers can finally conclude care for the patients.

## Admin dashboard in To Close state:

The screenshot shows the Admin dashboard with the following statistics:

- NEW: 1452
- PENDING: 266
- ACTIVE: 26
- CONCLUDE: 1078
- TO CLOSE: 519
- UNPAID: 16

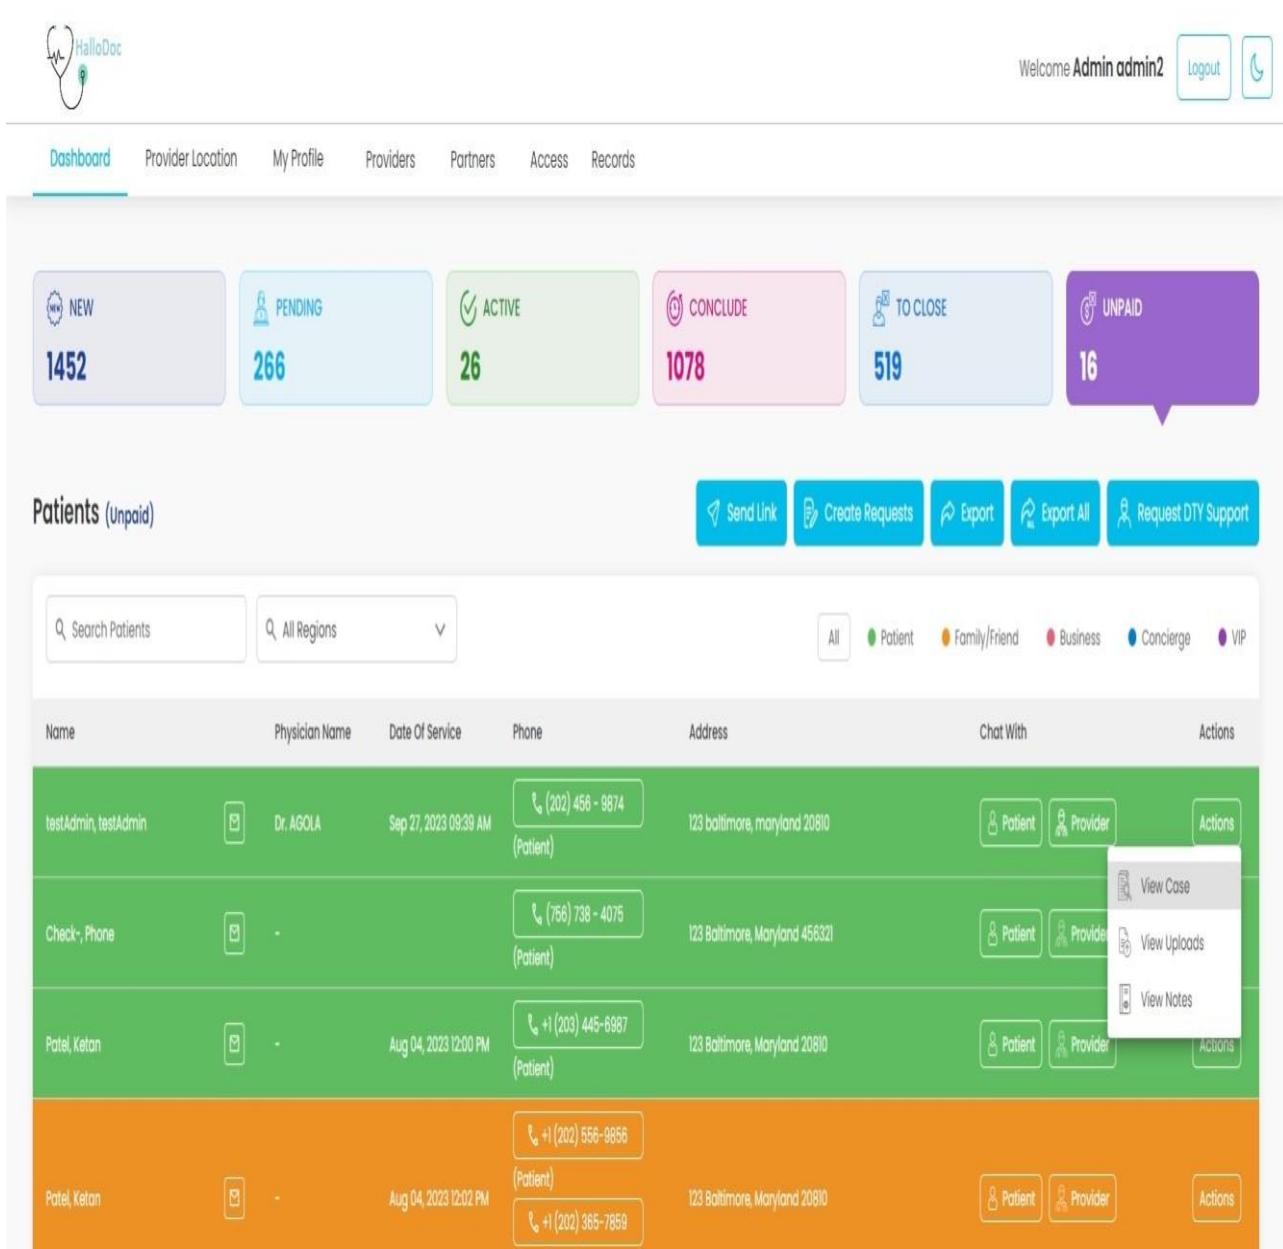

Below these stats, there's a section titled "Patients (Close)" with a search bar and filters. The main table lists patients with columns for Name, Date Of Birth, Region, Physician Name, Date Of Service, Address, Notes, Chat With, and Actions. One row is expanded to show transfer details:

Name	Date Of Birth	Region	Physician Name	Date Of Service	Address	Notes	Chat With	Actions
Brown, Ernest	Oct 13, 2023 (6)	District of Columbia	Dr. Brown		133 Maryland Ave SW Washington, DC 20024	Admin transferred to Dr. Brown on 13/10/2023 at 9:23:18 AM. New		
newVM, test	Oct 7, 2001 (22)	Maryland	Dr. AGOLA		123 Baltimore, Maryland 20800	Admin transferred to Dr. AGOLA on 10/10/2023 at 6:28:32 AM.		
test, test	Apr 11, 2009 (14)	Maryland	-		123 Baltimore, Maryland 20800	-		
test, test	Mar 15, 2011 (12)	Maryland	-		123 Baltimore, Maryland 20800	-		

Fig8. Admin dashboard in To Close state

This page will display all patient requests which are concluded by providers or cancelled by the admin. Admin can close the case.

## Admin dashboard in Unpaid state:

The screenshot shows the Admin dashboard with the following statistics:

- NEW: 1452
- PENDING: 266
- ACTIVE: 26
- CONCLUDE: 1078
- TO CLOSE: 519
- UNPAID: 16

**Patients (Unpaid)**

	Send Mail	Button	It will send the selected files via email. To patient's email address.

## Send Order:

The screenshot shows the 'Send Order' interface. At the top, there's a navigation bar with links for Dashboard, Provider Location, My Profile, Providers, Partners, Access, and Records. On the right, it says 'Welcome Admin admin2' with a logout link and a user icon. The main form has a title 'Send Order' and a back button. It contains several input fields: 'Select Profession' (dropdown), 'Business' (input), 'Business contact' (input), 'Email' (input), 'Fax Number' (input), and a large 'Prescription or Order details' text area. Below these is a dropdown for 'Number Of Refill' with options 'Not required' and '1'. At the bottom are 'Submit' and 'Cancel' buttons.

Fig16. Orders

### Description:

This page will open when admin/provider will click on “Orders” link from Actions menu. From the active, conclude and close state, admin/providers can send order to a registered business.

### Features:

#	Feature	Type	Description
	Select Profession	Dropdown	Admin/Provider needs to select a profession first to fetch related vendors.
	Business	Dropdown	Admin/Provider needs to select a registered business (Vendor) for selected profession.
	Business Contact	Input	It will show business contact of selected business. Admin/provider can edit business contact.
	Email	Input	It will show the email of selected business. Admin/provider can edit the email.
	Fax Number	Input	It will show the fax number of selected businesses. Admin/provider can edit the fax number.

	Prescription or Order Details	Input	Admin/Provider needs to enter order details to send order.
	Number of Refills	Dropdown	Admin/Provider can select how many times an order has to be refilled.
	Submit	Button	Clicking on this button, Admin/Provider can send the order to selected business.
	Cancel	Button	Clicking on this button, Admin/Provider will be redirected to Dashboard page.
	Back	Button	Clicking on this button, Admin/Provider will be redirected to Dashboard page.

## Transfer Request pop-up:

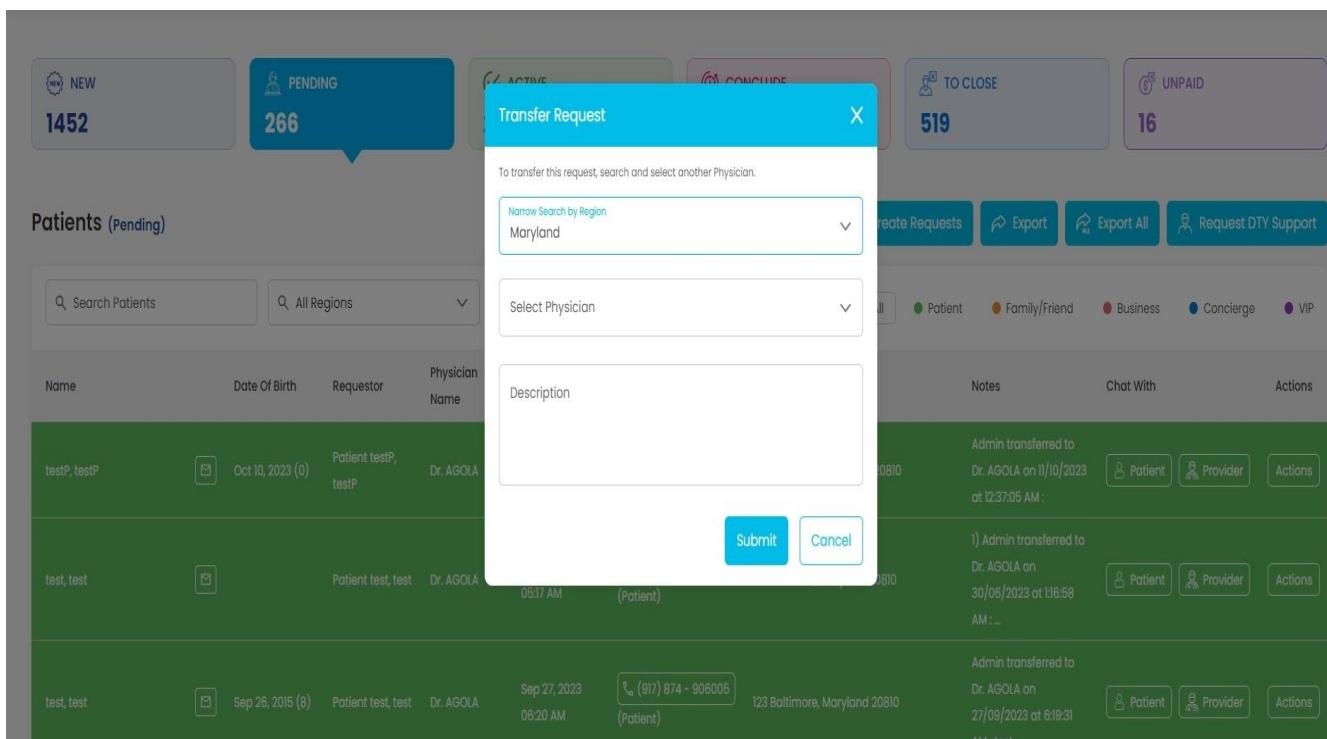

Fig17.Transfer

### Description:

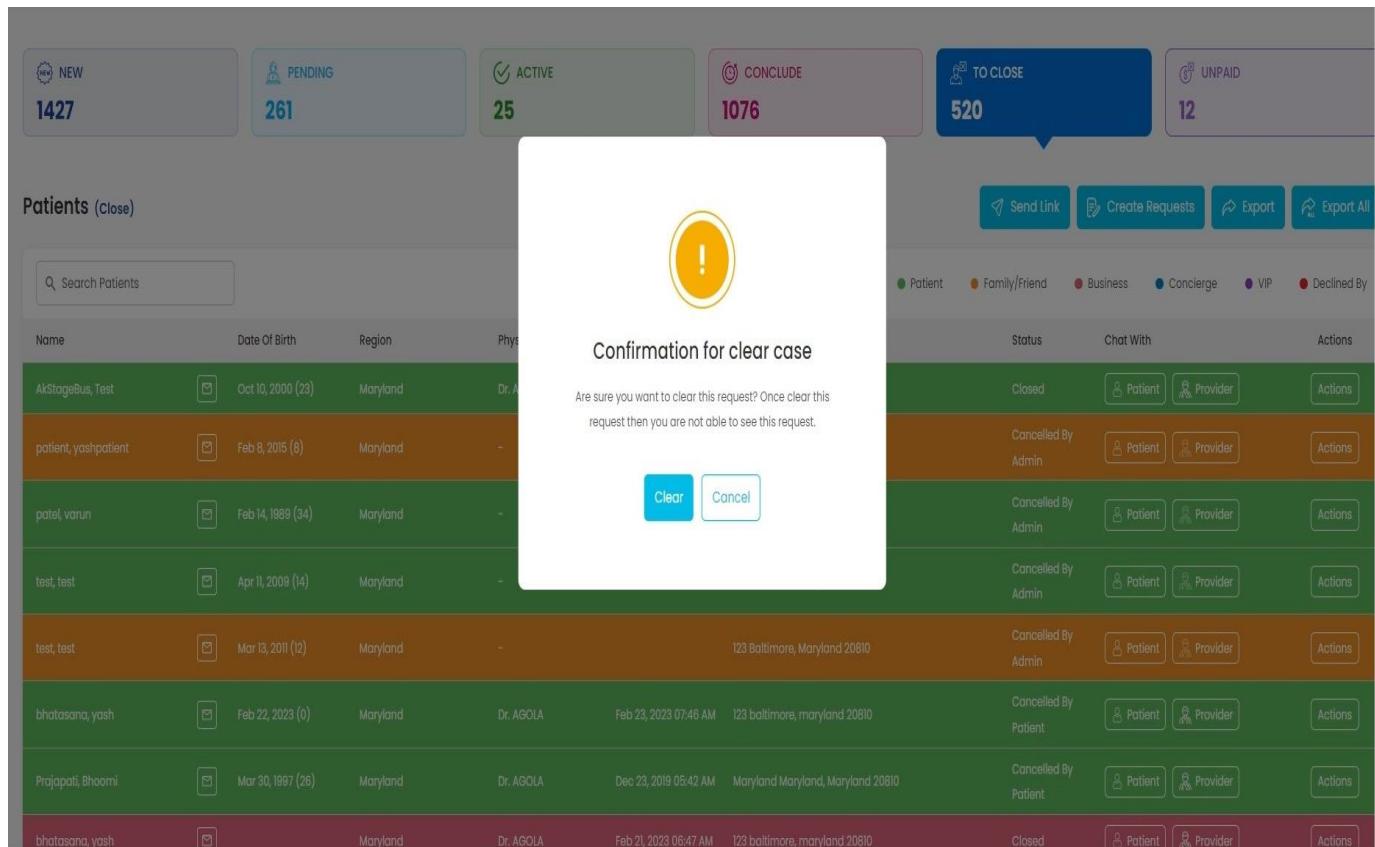

This pop-up will open when admin clicks on “Transfer” link from Actions menu. From the pending state, admin can transfer assigned request to another physician.

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

**Features:**

#	Feature	Type	Description
	Region	Dropdown	Admin can search physician by selecting one region.
	Physician	Dropdown	Admin needs to select Physician to whom request is transferring.
	Description	Input	Admin can enter a note for transfer.
	Submit	Button	Clicking on this button, Admin can transfer requests from assigned physician to different physician.
	Cancel	Button	Clicking on this button will close this pop-up.

**Clear case pop-up:**

The screenshot shows a patient management interface with various status filters at the top: NEW (1427), PENDING (261), ACTIVE (25), CONCLUDE (1076), TO CLOSE (520), and UNPAID (12). Below these are buttons for Send Link, Create Requests, Export, and Export All.

The main area displays a list of patients with columns for Name, Date Of Birth, Region, and Physician. A modal dialog box is centered over the list, containing a large yellow exclamation mark icon. The title of the dialog is "Confirmation for clear case". The message inside states: "Are you sure you want to clear this request? Once clear this request then you are not able to see this request." At the bottom of the dialog are two buttons: "Clear" (blue) and "Cancel" (white).

At the bottom of the page, there are links to contact TatvaSoft: "it us at: [www.tatvasoft.com](http://www.tatvasoft.com)" and "E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)".

test, test	Oct 18, 2023 (0)	+1 (202) 114-6789 (Patient)	123 baltimore, maryland 20800	Admin transferred to Dr. ABCDE on 11/01/2023 at 9:07:19 AM (EST)	<a href="#">Provider</a> <a href="#">Actions</a>

Fig22. Regions

#### Description:

In dashboard page Admin can filter requests using Region's filter. By default, requests of All regions will be fetched.

## Request Support:

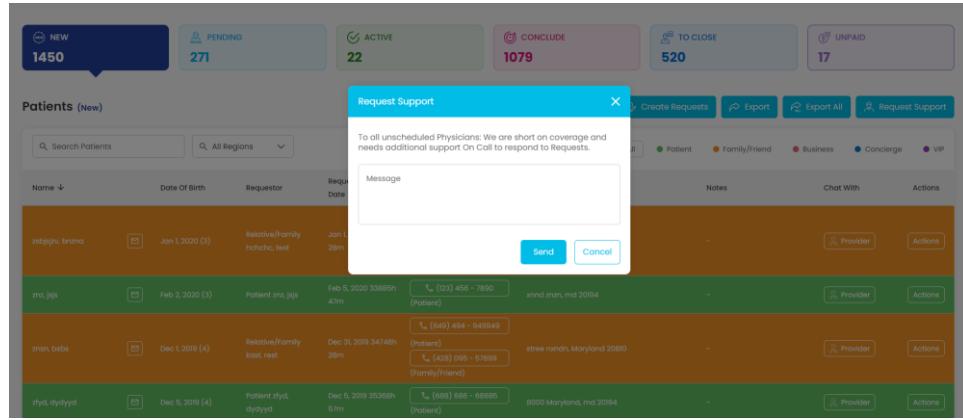

Fig23.Request Support

#### Description:

This popup is used for Sending message to all unscheduled Physicians.

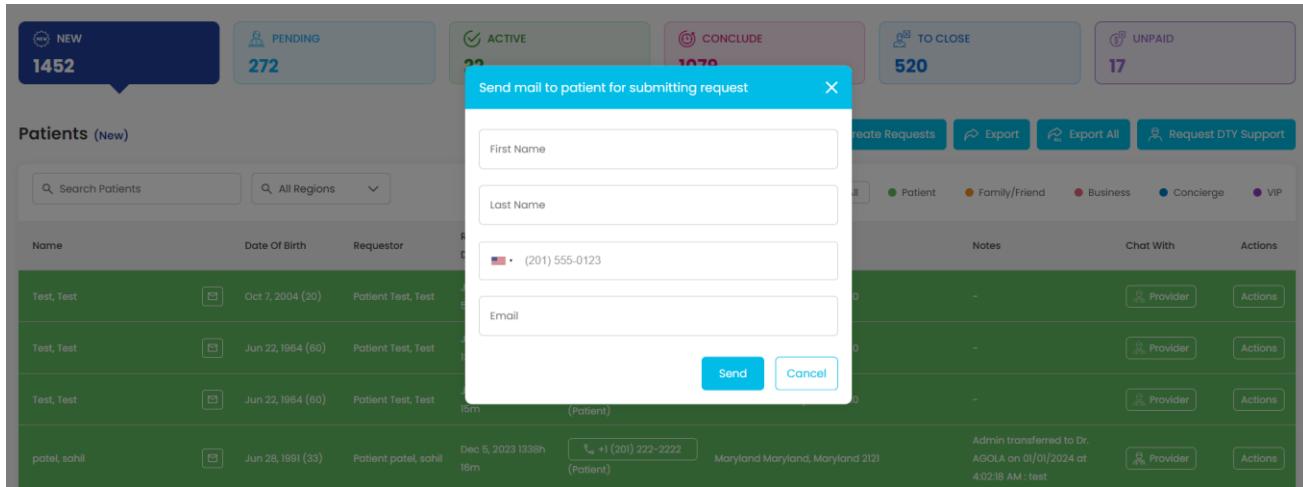

#### Features:

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

#	Feature	Type	Description
	Message	Textbox	Admin will need to enter a message that will be sent to all unscheduled physicians.
	Send	Button	Clicking on this button will send the entered message to all unscheduled physicians.
	Cancel	Button	Clicking on this button will close Request DTY Support modal.

## Send Link:

### Description:

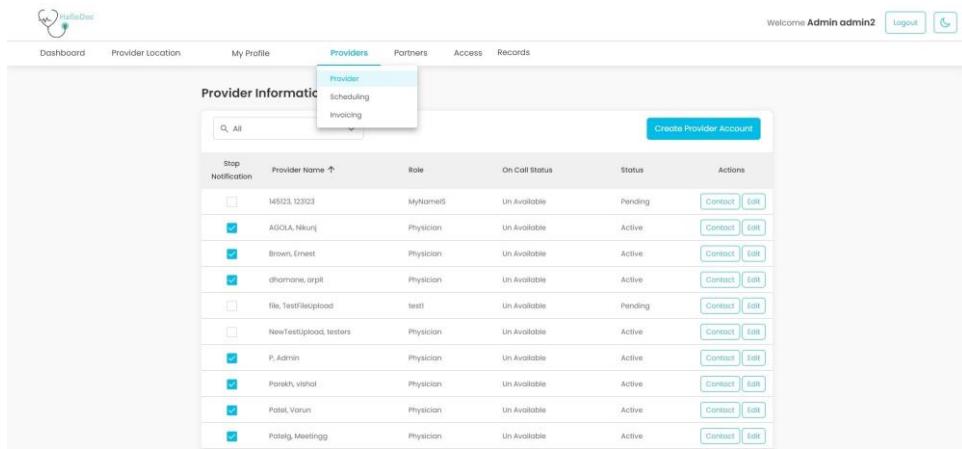

This popup is opened when clicked on Send link button in dashboard, it will be used to send link of Submit Request Screen page to the patient via email and SMS.

### Features:

#	Feature	Type	Description
	First name	Textbox	Admin/Provider must enter the first name of the patient.
	Last name	Textbox	Admin/Provider must enter the last name of the patient.
	Phone	Textbox	Admin/Provider must enter the phone number of the patient.
	Email	Textbox	Admin/Provider must enter the email of the patient
	Send	Button	By clicking on this button, A link for Submit request screen page of patient site is sent to patient via Email and SMS.

	Cancel	Button	By Clicking this button, the pop-up will close.
--	--------	--------	---

## Provider Menu:

The screenshot shows a provider management interface. At the top, there's a navigation bar with links like Dashboard, Provider Location, My Profile, Providers (which is the active tab), Partners, Access, and Records. A dropdown menu under 'Providers' includes options like Provider, Scheduling, and Invoicing. Below the navigation is a search bar with a placeholder 'Q\_ All'. A large table lists providers with the following columns: Stop Notification, Provider Name (sorted by up arrow), Role, On Call Status, Status, and Actions (Contact and Edit buttons). The table contains 10 rows of provider data.

Fig24. Provider Menu

This screenshot shows a 'Contact Your Provider' modal window. It has a title bar 'Contact Your Provider' with a close button. Inside, it says 'Choose communication to send message' and has three radio buttons: SMS (selected), Email, and Both. Below is a 'Message' input area with a scroll bar. At the bottom are 'Send' and 'Cancel' buttons. The background shows a list of providers identical to Fig24, with one row highlighted for selection.

Fig25. Contact your Provider

By clicking the Contact button this pop-up will appear to the admin. Using this pop-up admin can send notification to provider by selected communication type (SMS, Email or Both) with a message.

### Scheduling:

 it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

 E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

The screenshot shows a scheduling interface for December 4, 2023. The top navigation bar includes links for Dashboard, Provider Location, My Profile, Providers (which is the active tab), Partners, Access, and Records. Below the navigation is a "Scheduling" section with a dropdown for "All Regions". A row of buttons at the top right includes "Providers On Call", "Shifts For Review", and "Add New Shift". The main area displays a grid for the day, with columns labeled from 1AM to 1PM. The grid rows represent different staff members, each with a small profile picture and name. A legend indicates that pink boxes represent "Pending Shifts" and green boxes represent "Approved Shifts". Buttons for "Day", "Week", and "Month" are located at the bottom right of the grid.

Fig32. Day wise Scheduling

The screenshot shows a scheduling interface for December 2023. The top navigation bar is identical to Fig32. The "Scheduling" section shows a monthly calendar with days of the week labeled (SUN, MON, TUE, WED, THU, FRI, SAT). Specific dates are highlighted in pink: December 1st, 3rd, 5th, 7th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, and 17th. A legend at the top right shows a pink square for "Pending Shifts" and a green square for "Approved Shifts". Buttons for "Day", "Week", and "Month" are at the bottom right.

Fig35. Provider on call (MDs On Call)

The screenshot shows a web-based application titled 'Requested Shifts'. At the top, there is a search bar labeled 'All Regions' with a dropdown arrow, and three buttons: 'View Current Month Shifts' (green), 'Approved Selected' (green), and 'Delete Selected' (red). Below the search bar is a table with one row. The columns are 'Staff' (checkbox), 'Day' (Dec 09, 2023), 'Time' (8:15 PM - 9:15 PM), and 'Region' (New York). The staff entry is 'Nikunj AGOLA'. At the bottom of the table, it says '1-1 of 1' with navigation arrows.

Fig36. Requested Shift

#### Description:

This page will allow Admin to review provider's shifts, add new shifts, providers on call based on selected region by weekly, monthly or daily in a calendar view. It's connected to Google calendar so Admin/Providers will get Google reminder of their scheduled shifts. All the shifts which are approved by admin will be colored green color and those which are not approved by admin will be colored with red color.

#### Features:

#	Feature	Type	Description
	Back	Button	It will redirect to dashboard page
	All Regions	Dropdown	It will allow admin to select regions from region drop-down
	Provider On call	Button	Clicking on this button will redirect to MD's On Call page. This page will show the list of providers who are on-call right now and who are off duty with their profile photos which has added by them in their profile.
	Shifts for review	Button	It will redirect to the Requested shifts page. This page will show the list of which are created by providers.
	Add new Shift	Button	Clicking on this button will open a pop-up for creating a new shift.
	Day	Button	Clicking on this button will show the created shifts in day wise.
	Week	Button	Clicking on this button will show the shifts created shifts on a weekly basis.
	Month	Button	Clicking on this button will show the shifts created on a monthly basis. Initially when admin lands on this page it will show the shifts in month format.

	View Current Month Shifts	Button	Clicking on this button will redirect an Admin to scheduling page to view shifts in monthly view.
	Approved selected	Button	Clicking on this button, admin can approve the selected shifts.
	Delete Selected	Button	Clicking on this button, admin can delete the selected shifts.
	Select All	Button	Clicking on this button, admin can select all the listed shifts.

## Create new Shift

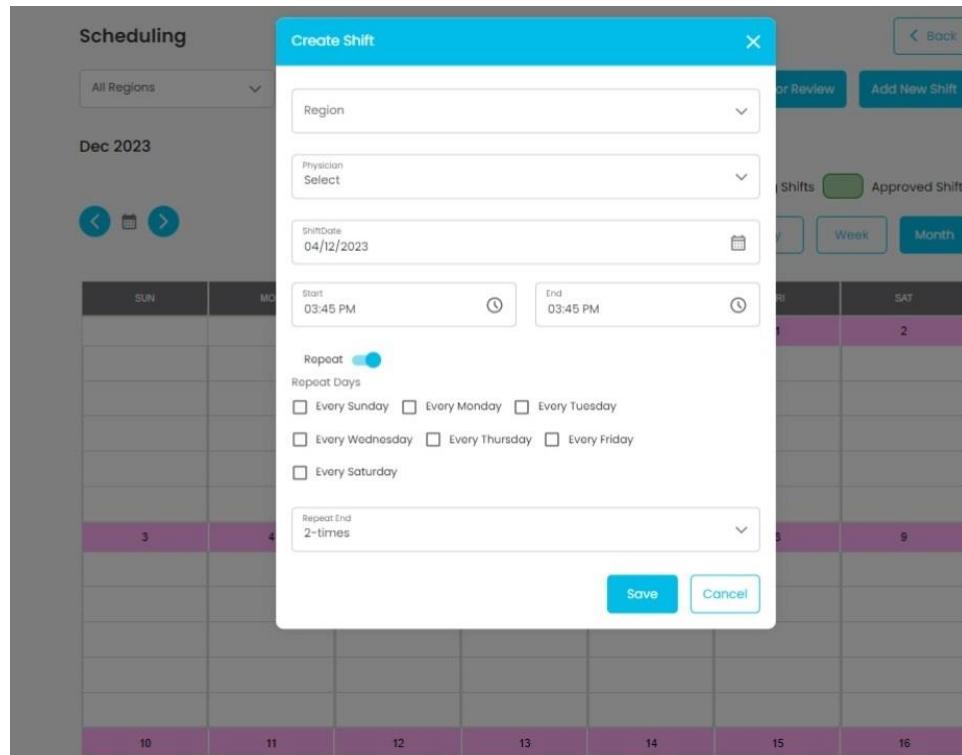

Fig37. Create Shift

#### Description:

This page will allow Admin to create shift for the provider with start date and time to end date and time. Admin can also create shifts that can be repeated in selected amount of time.

#### Features:

#	Feature	Type	Description
	Region	Dropdown	It will allow admin to select regions from region drop-down
	Provider	Dropdown	It will allow admin to select provider based on selected regions from region drop-down
	Day	Date picker	It will help to select the date of a shift
	Start	Time Picker	It will help to select the start time of a shift
	End	Time Picker	It will help to select the end time of a shift

	Repeat	Toggle Button	It will allow us to repeat the shift.
	Repeat days	Checkbox	It will be visible when you turn on the toggle button. You can select on which days you want to repeat the shift.
	Repeat end	Dropdown	It will be visible when you turn on the toggle button. You can select how many times you want to repeat the shift.
	Create	Button	Clicking on this button, the shift will be created with filled details
	Cancel	Button	Clicking on this button, the popup will be closed without creating a shift.

## View Edit/Delete Shift:

When admin clicks on today's shift or the future shift, View-shift popup will open to delete or edit that shift.

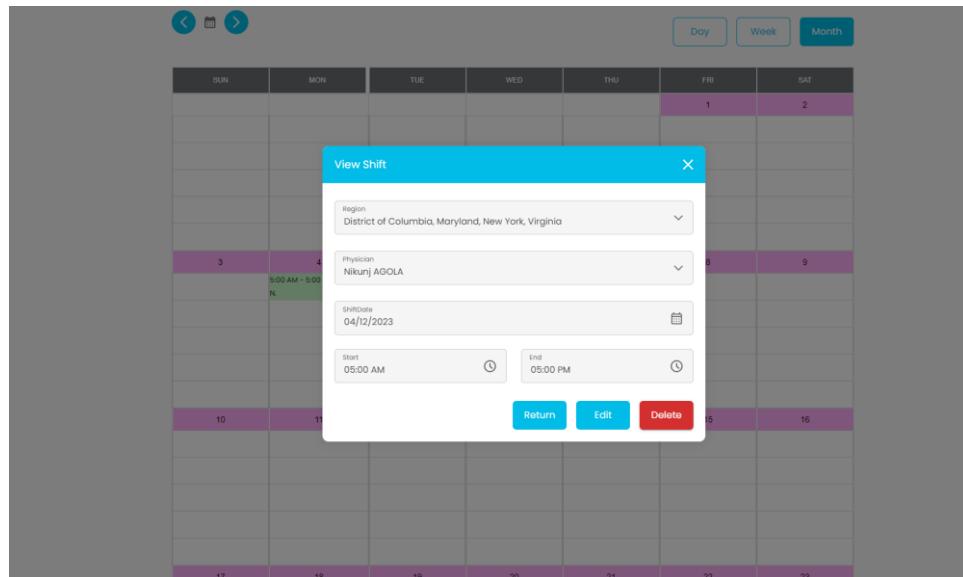

Fig38. View /edit /Delete Shift

## Features:

## Create Requests for Admin and physician:

The screenshot displays two views of the TatvaSoft application. The top view is the 'Dashboard' showing patient status counts: NEW (1), PENDING (97), ACTIVE (5), and CONCLUDE (206). Below this is a table for 'Patients (New)' with one entry: 'test, test' with phone '(201) 555-0123'. The bottom view is a 'Create Requests' form titled 'Submit Information' for a 'Patient'. It includes fields for First Name, Last Name, Phone, Email, Date of Birth, Street, City, State, Zip Code, Room #, Verify, Map, and Admin Notes. Buttons for 'Save' and 'Cancel' are at the bottom.

Fig48. Create Requests

### Description:

This page will open by clicking the Create Request button from dashboard and it will help for creating a request from admin and provider side. Both admin and physician can create a request. If a physician creates a request, they will be already assigned to it and created in pending state.

### Features:

#	Feature	Type	Description
---	---------	------	-------------

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

	First Name	Textbox	It will show full name of the patient
	Last Name	Textbox	It will show last name of the patient
	Date of birth	Textbox	It will show date of birth of the patient
	Phone number	Textbox	It will show Phone number of the patient
	Email	Textbox	It will show Email of the patient

	Map	Button	Clicking on this button will open the entered location in Google map
	Physician notes	Textbox	It will be visible only when the provider is creating a request. It helps to add additional comment for provider related to that request.
	Admin Notes	Textbox	It will be visible only when admin is creating a request. It helps to add additional comment for admin related to that request.
	Save	Button	Clicking on this button will save a new request

	Cancel	Button	Clicking on this button will redirect to dashboard page
	Back	Button	Clicking on this button will redirect to dashboard page

### 3. Provider dashboard:

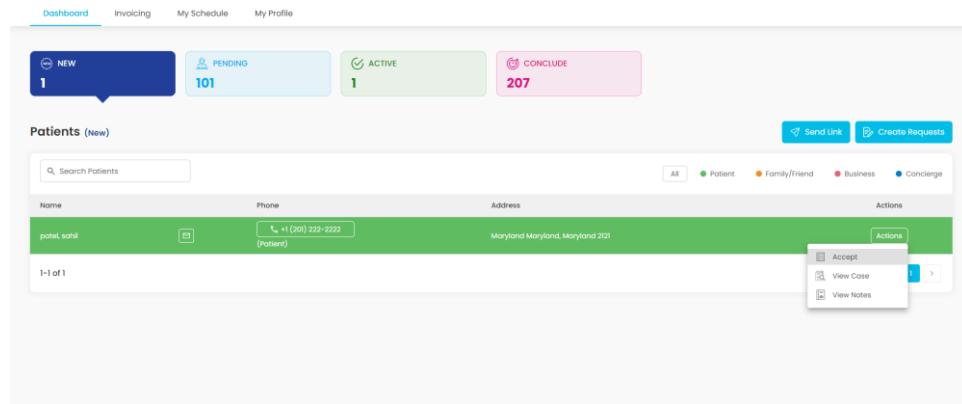

Fig49. Provider dashboard

#### Description:

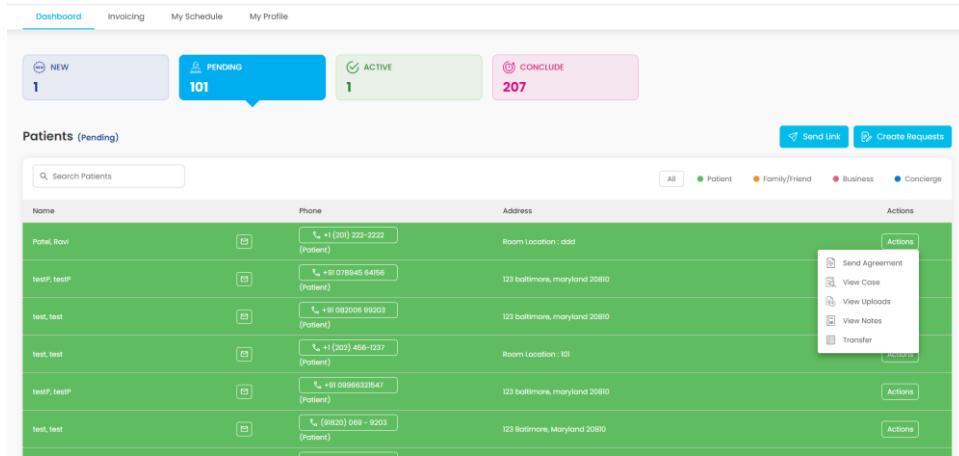

Once the login is successfully completed by the provider, he/she will be automatically directed to the platform's landing page, which will showcase the patient requests. The provider will have the ability to filter the requests based on their request type and search for specific requests using the patient's name or the name of the requestor. On desktop devices, the requests can be viewed in a grid format, while on mobile devices, a card view will be provided for optimal display.

#### Features:

#	Feature	Type	Description
	New	Button	Clicking on this button, Provider can view all the newly created patient requests which are assigned to him by admin.
	Pending	Button	Clicking on this button, Provider can view all patient requests which are accepted by that provider and patients who do not have accepted the agreement yet.
	Active	Button	Clicking on this button, Provider can view all requests for which patients have accepted the agreement or providers has choose House-call for providing the care.
	Conclude	Button	Clicking on this button, Provider can view all requests for which he has completed their service from his side.
	Send Link	Button	Clicking on this button, Provider can send link to patients for creating a request via email and SMS.

	Create Request	Button	Clicking on this button, Provider can create a request on behalf of patient.
	Search Patients	Input	Provider can search patients by patient name, requestor name

## Provider Pending State:

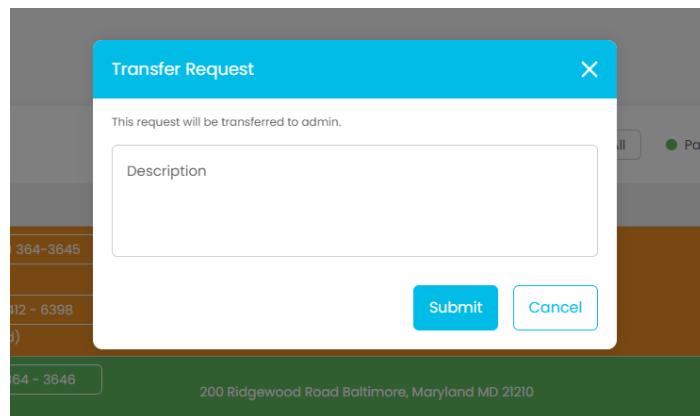

The screenshot shows a provider's dashboard with the following statistics:

- NEW: 1
- PENDING: 101 (highlighted in blue)
- ACTIVE: 1
- CONCLUDE: 207 (highlighted in pink)

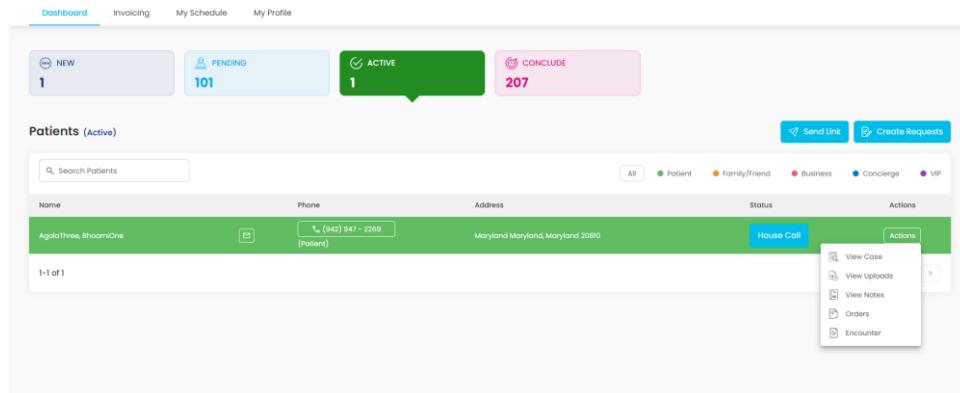

Below the stats, there is a section titled "Patients (Pending)" with a search bar and filters. The table lists patient details including Name, Phone, Address, and Room Location. For each patient, there is an "Actions" menu with options like Send Agreement, View Case, View Uploads, View Notes, and Transfer. The last two rows in the list are highlighted in green.

## Provider Pending State: Action > Transfer

When request is in pending state and provider click on transfer button from Actions menu then this pop-up is opened. This pop-up will be used to transfer the request back to Admin. After clicking on Submit request status is changed from Accepted to unassigned and it will be shown in new dashboard state of admin. Provided description is used as transfer note.

## Provider Active State:

## Provider Active State: Action >Encounter

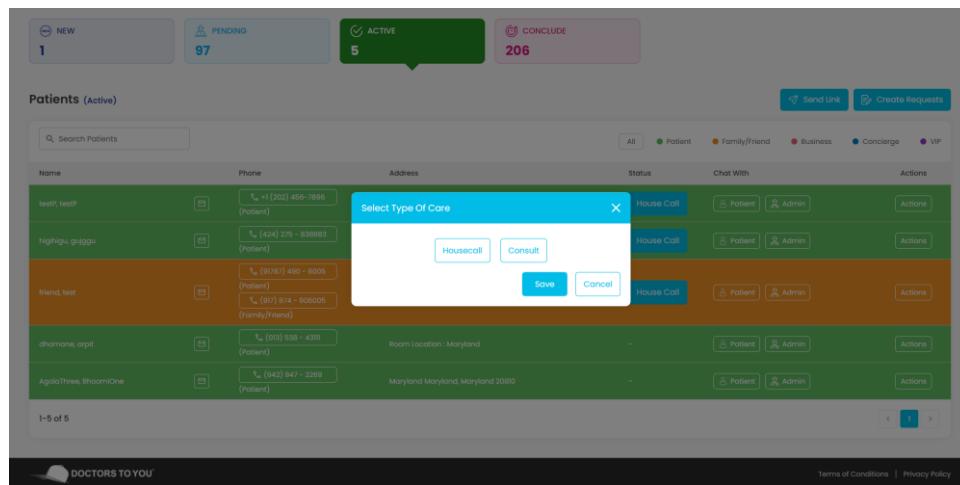

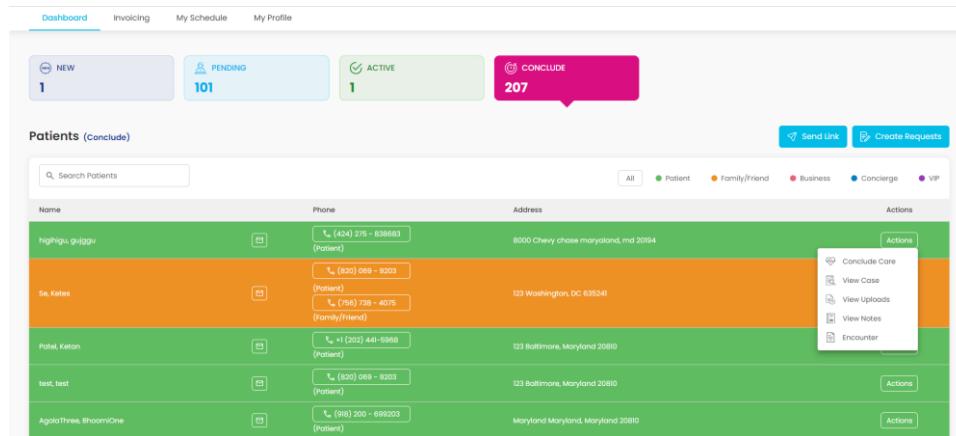

Fig50.Encounter (Type Of care)

When request is in Active state, provider needs to select the type of care for the patients. So, when request is in Active state and provider hasn't selected any type of care then if he/she will click on Encounter from Actions menu then this kind of Select type of care pop-up will open with dropdown list which contains 2 options of care type: consult and house-call. If the provider selects the consult, then that request will move into Conclude state. If the provider selects house-call, then the request will remain in same state but request status will be changed from MDEnRoute to MDOnSite. And a new Button will appear with label "House-call", and by clicking on that request will be transferred to conclude state. After saving the call type, provider can create encounter form.

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

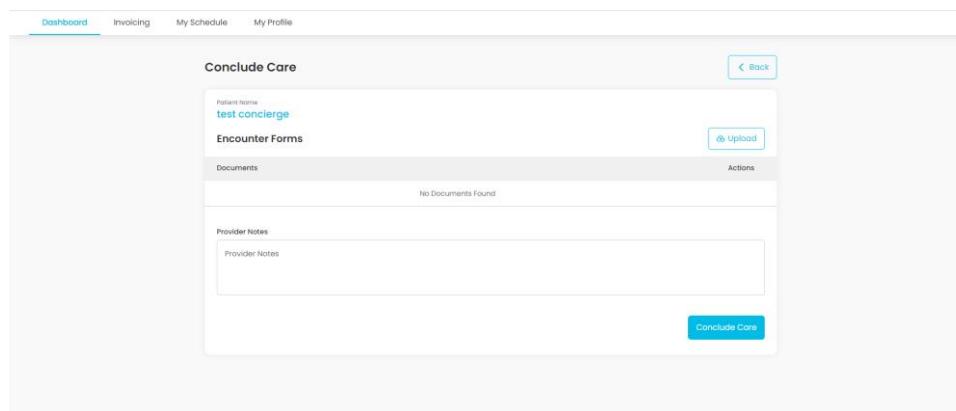

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

## Provider Conclude State:

Name	Phone	Address	Actions
Nhighigu, guiggu	(424) 275 - 838683 (Patient)	8000 Chevy chase maryland, md 20884	Conclude Care View Case View Uploads View Notes Encounter
Sa, ketes	(820) 089 - 9203 (Patient) (756) 28 - 4076 (Family/Friend)	123 Washington, DC 20524	
Potel, Ketan	(1) (202) 441-5968 (Patient)	123 Baltimore, Maryland 20880	
test, test	(820) 089 - 9203 (Patient)	123 Baltimore, Maryland 20880	
AgodaThree, RhoonOne	(89) 200 - 699203 (Patient)	Maryland Maryland, Maryland 20810	

## Provider Conclude State: Action > Conclude Care

When the provider clicks on Conclude care this page opens. Using this page, the provider will conclude their service to the patient. In this page, provider can view all uploaded documents and upload new documents before the case is concluded. After concluding the case the request status will change from "Conclude" to "Closed" and will be shown in To-close dashboard state. To conclude a case finalizing encounter form is required, without finalizing encounter form provider cannot conclude the case.

## Provider Conclude State: Action > Encounter form

### Description:

Once the call type is selected, the provider can add an encounter form which is basically a medical report created by checking patient's medical condition. The provider can save the form multiple times, but he can finalize the form only one time. And after finalizing the form he cannot edit the form. Admin can see or edit the form whether form is finalized or not, but admin cannot finalize any encounter form.

Fig59. Create Family/friend request

**Description:**

This page will allow any family member or friends to add requests on behalf of an actual patient.

it us at: [www.tatvasoft.com](http://www.tatvasoft.com)

E-mail us at: [business@tatvasoft.com](mailto:business@tatvasoft.com)

**Features:**

#	Feature	Type	Description
	First name	Input	Requestors need to enter their first name in this field.
	Last name	Input	Requestors need to enter their last name in this field.
	Phone number	Input	Requestors need to enter their phone number in this field.
	Email	Input	Requestors need to enter their email address in this field.
	Relation with Patient	Input	Requestors can specify their relationship with the patient.
	Symptoms	Input	Requestor can enter symptoms of patient.
	Patient First name	Input	Requestor needs to enter the first name of the patient.
	Patient last name	input	The requestor needs to enter the last name of the patient.
	Patient Birthdate	Input	Requestor needs to select birthdate of patient.
	Patient Email	Input	Requestor needs to enter patients email address
	Patient Phone	Input	Requestor needs to enter patients phone number.
	Patient Location	Input	Requestor needs to provide patients location with zip code.
	Upload	Button	Clicking on this button, Requestor can upload any image of document related to the request.
	Submit	Button	Clicking on this button, the Requestor can submit a request on behalf of the patient.
	Back	Button	Clicking on this button, Requestor will be redirected to Submit Request screen.

Create Concierge request:

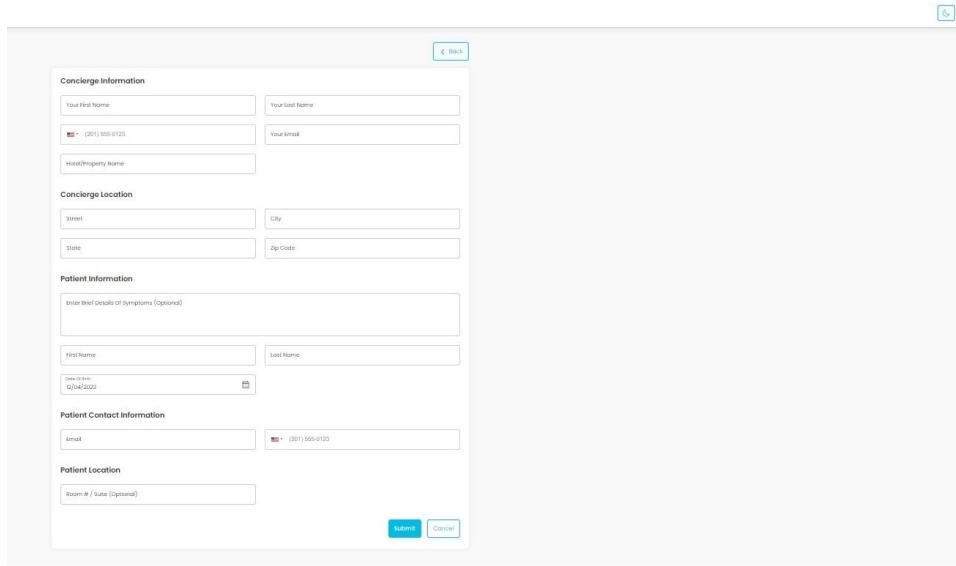

Fig60. Create concierge request

**Description:**

This page will allow any concierge (hotel staff) to create medical care request for a patient.

**Features:**

#	Feature	Type	Description
	First name	Input	Requestors need to enter their first name in this field.
	Last name	Input	Requestors need to enter their last name in this field.
	Phone number	Input	Requestors need to enter their phone number in this field.
	Email	Input	Requestors need to enter their email address in this field.
	Hotel/ Property name	Input	Requestors need to enter their property name in which patient needs medical care.
	Concierge location	Input	Requestor needs to provide their location with zip code.
	Symptoms	Input	Requestor can enter symptoms of patient.
	Patient First name	Input	Requestor needs to enter the first name of the patient.
	Patient last name	input	The requestor needs to enter the last name of the patient.

	Patient Email	Input	Requestor needs to enter patients email address
	Patient Phone	Input	Requestor needs to enter patients phone number.
	Room number/ location	Input	Requestor can provide room number in which patient is stayed.
	Submit	Button	Clicking on this button, the Requestor can submit a request on behalf of the patient.
	Back	Button	Clicking on this button, Requestor will be redirected to Submit Request screen.

## Create business request:

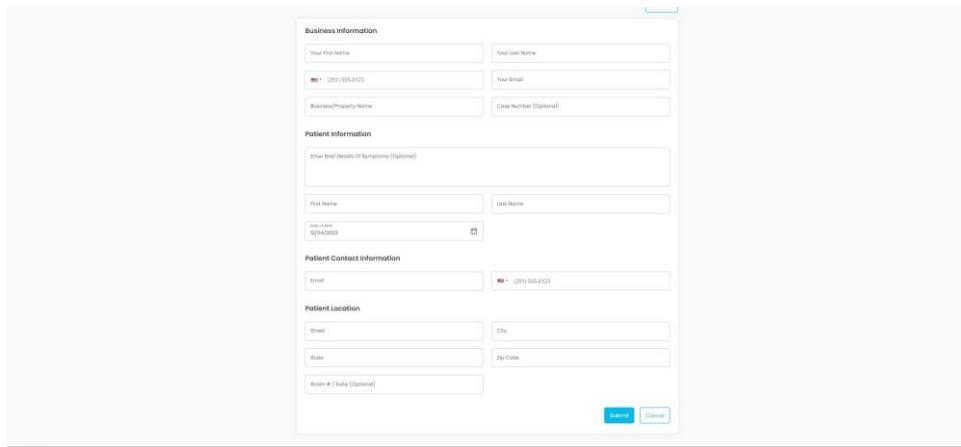

Fig61. Create business request

### Description:

This page will allow any business partner to create medical requests for patients.

### Features:

#	Feature	Type	Description
	First name	Input	Requestors need to enter their first name in this field.
	Last name	Input	Requestors need to enter their last name in this field.
	Phone number	Input	Requestors need to enter their phone number in this field.

	Email	Input	Requestors need to enter their email address in this field.
	Business/ Property name	Input	Requestors need to enter their business name
	Case Number	Input	Requestor can enter case number of patient
	Symptoms	Input	Requestor can enter symptoms of patient.
	Patient First name	Input	Requestor needs to enter the first name of the patient.
	Patient last name	input	The requestor needs to enter the last name of the patient.
	Patient Email	Input	Requestor needs to enter patients email address
	Patient Phone	Input	Requestor needs to enter patients phone number.
	Patient Location	Input	Requestor needs to provide patients location with zip code.
	Submit	Button	Clicking on this button, the Requestor can submit a request on behalf of the patient.
	Back	Button	Clicking on this button, Requestor will be redirected to Submit Request screen.

## Registered Patient:

### Description:

This page will appear when the user lands on the platform.

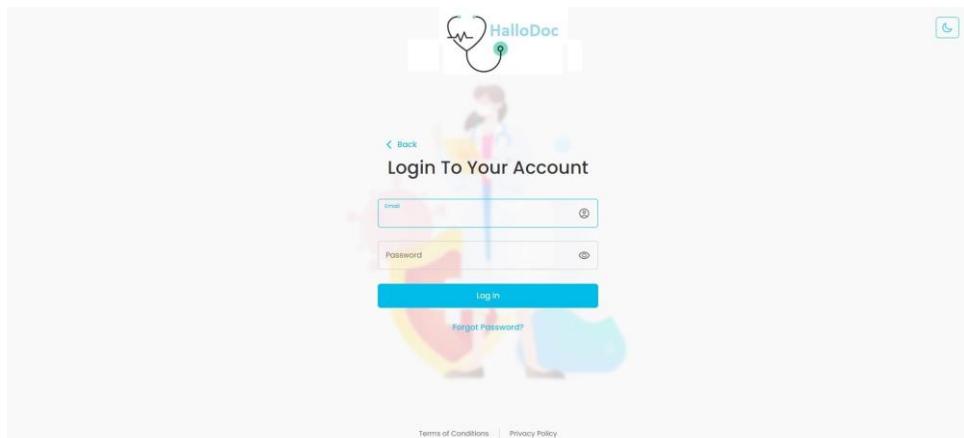

Fig62.Login Patient Account

**Description:**

Users can login to platform using their email address and password.

**Features:**

#	Feature	Type	Description
	Email address	Input	User will need to enter his email address in this text box.
	Password	Input	Users will need to enter his password in this text box.
	Login	Button	After entering the correct email address and password, clicking on this button will allow user to sign into the platform.
	Forgot password	Link	If a user forgets his or her password, he or she must select "Forgot password?"
	Footer links	Link	It will display links to pages such as Terms of condition and privacy policy.

## Reset Password

**Description:**

Users will receive a link for this page via email when requested through forgot password page. When Page is loaded Link will be checked for expiration.

**Features:**

#	Feature	Type	Description
	Password	Input	Users will need to enter a new password.
	Confirm Password	Input	User will need to confirm the new password
	Reset	Button	Clicking on this button, User can reset their password.

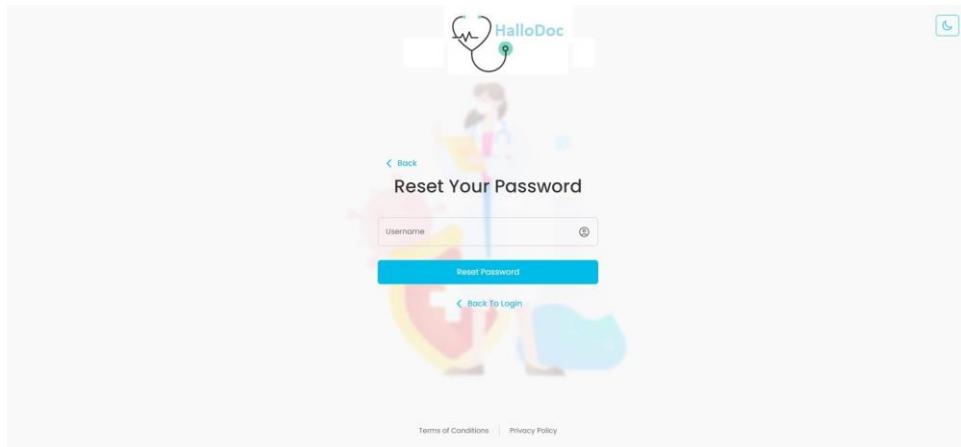

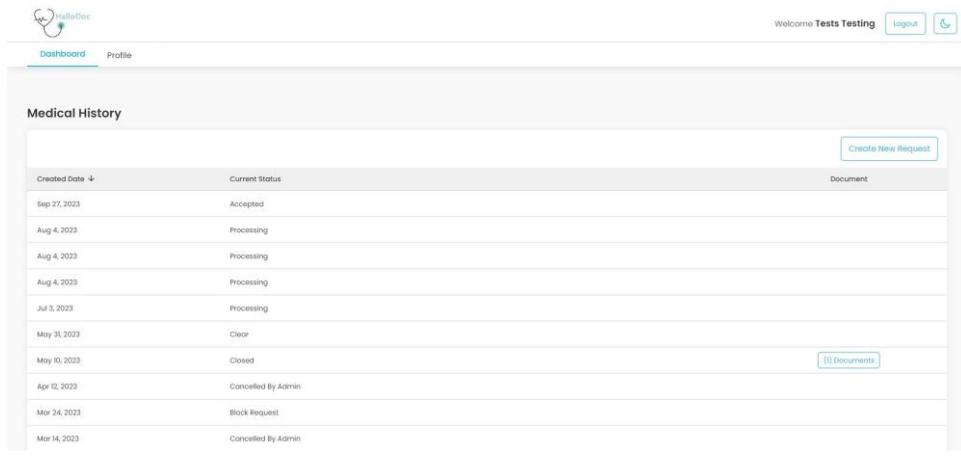

Fig63.Reser Your Password

## Patient Dashboard:

### Description:

This page will be shown when Patient logins to the platform with valid patient credentials. This page will allow patients to see their request status.

## Create Patient Account:

The screenshot shows the 'Create Account' page for the HalloDoc platform. The page has a clean, modern design with a light gray background. In the center, there is a stylized illustration of a doctor wearing a white coat and a stethoscope. The 'HalloDoc' logo is positioned above the doctor's head. Below the illustration, the words 'Create Account' are written in a bold, sans-serif font. Underneath the heading are three input fields: 'Email', 'Password', and 'Confirm Password', each accompanied by a small eye icon for password visibility. A large, prominent blue button labeled 'Create' is located at the bottom of the form. At the very bottom of the page, there are two small links: 'Terms of Conditions' and 'Privacy Policy'.

**Description:**

This page will not be visible directly to the patient. Every time a request for Family/friend, Concierge, Business is created link for this page is sent to the patient to create account.

**Features:**

#	Feature	Type	Description
	Email	Textbox	Patient will enter their email for registration.
	Password	Textbox	Patient will enter password for the account.
	Confirm Password	Textbox	Patient will confirm their password.
	Create	Button	By Clicking this button, Account will be created for this email and created account id will be saved in Request data.

**Review Agreement:**

To provide best medical service, we cannot determine the cost right away. If you agree to our service, so we will provide care and follow-up until all care is completed. So with this points, if you like us to provide care to you click on "Agree" and we'll get started immediately, if you do not agree simply click "Cancel".

I Agree
Cancel

**Description:**

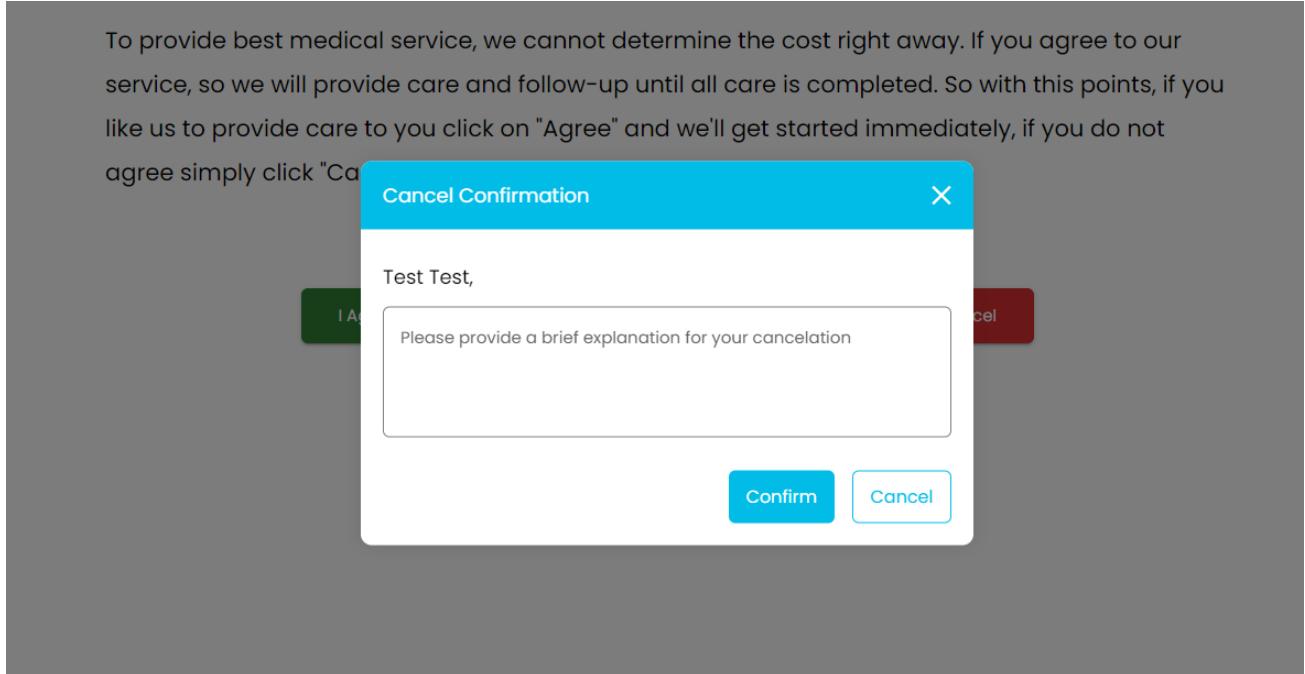

This page will not be visible directly to the patient. Admin or Provider will send agreement link to patient when request is pending state. This link can only be open, if request is in pending state.

**Features:**

#	Feature	Type	Description

	I Agree	Button	Patient can click on this button to agree the agreement, and after that Request will be transferred to Active state.
	Cancel	Button	By Clicking on this button, Agreement cancel pop-up will open.

## Agreement cancel pop-up:

### Description:

This pop-up will open when clicked on Cancel button in Review agreement page. In that Patient must provide reason for cancellation.

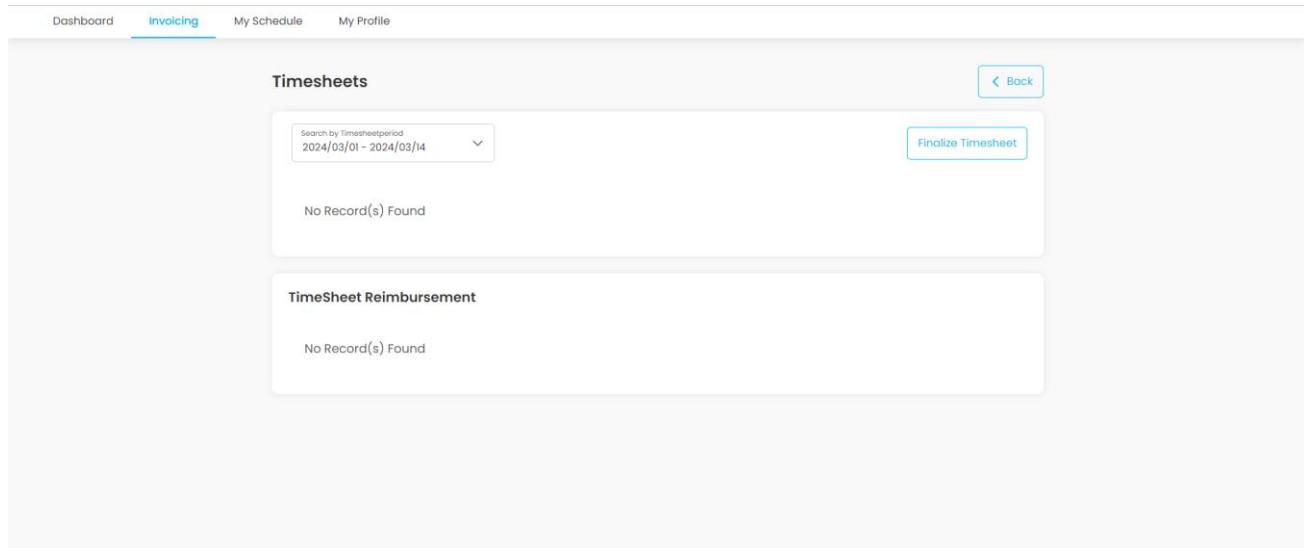

### Features:

#	Feature	Type	Description
	Reason	Textbox	Patient must give reason for cancellation.
	Confirm	Button	By Clicking on this button, Patient can cancel the agreement, and provided reason will be stored as Patient cancellation notes. Also, Request will be transferred to "To-close" state.
	Cancel	Button	By Clicking on this button, this pop-up will close.

## Good to Have:

Provider side:

Invoicing:

The screenshot shows the 'Invoicing' section of the provider's dashboard. At the top, there are tabs for 'Dashboard', 'Invoicing' (which is selected), 'My Schedule', and 'My Profile'. Below the tabs, there are two main sections: 'Timesheets' and 'TimeSheet Reimbursement'. The 'Timesheets' section contains a search bar set to '2024/03/01 - 2024/03/14' and a button labeled 'Finalize Timesheet'. It displays the message 'No Record(s) Found'. The 'TimeSheet Reimbursement' section also displays 'No Record(s) Found'.

### Description:

Provider can add his bi-weekly timesheet using Invoicing Page. Bi-weekly Timesheet is timesheet of 15 days of a month. Provider first need to fill their timesheet and finalize it to seek approval from Admin.

### Features:

#	Feature	Type	Description
	Timesheet Period	Select Drop-down	Providers can open the timesheet of any timesheet period using this dropdown. Timesheet period is 15 days of a month. Month is divided in 2 halves: 1 <sup>st</sup> half (1 to 14 dates) and 2 <sup>nd</sup> half (15 to remaining dates).
	Finalize Timesheet	Button	This button is only shown if the Provider has not finalized the timesheet yet. Clicking on this button will redirect the provider to Fill Bi-weekly timesheet page.
	Timesheet Reimbursement	Section	In this section all the reimbursement will be shown which is uploaded by Provider during selected Time period. Reimbursement is the bill for any expense done by the provider during that time.

## Fill Bi-weekly timesheet:

[Finalize](#)

#### Description:

Using this page provider can fill their bi-weekly timesheet of specified timesheet period. This page is opened by clicking on “Finalize Timesheet” button in the Invoicing page. Providers can submit and save their timesheet and finalize their timesheet to seek approval from Admin. Providers can also add receipts of expenses done during the period using the Add receipt button.

#### Features:

#	Feature	Type	Description
	Date	Text	It will show a particular date between the period.
	On-call hours	Text	This will show physician's shift hours of that day. If the physician has not created a shift for that day, then 0 will be shown.

	Total Hours	input	It will by default show hours same as on-call hours. But the physician can edit those hours. These hours are how many hours are spent by the physician during that date.
	Weekend/ Holiday	checkbox	Physician can check this checkbox to indicate that the date is a weekend or holiday.
	Number of housecall	input	Physician can specify the number of housecall done by them during that day.
	Number of phone consult	input	Physicians can specify the number of phone consultations done by them during that day.
	Submit	button	By clicking on this button physician can save their bi-weekly timesheet. After saving they will be able to open this page.
	Add Receipts	button	By clicking on this button Physician can add receipts of expenses. Clicking on this button will show/hide receipts section.
	Item	input	Expense item name will be entered here.
	Amount	input	Expense amount will be entered here.
	Bill	File input	Physician can upload a receipt or bill of expense. Before uploading expense-item and amount is mandatory.
	Edit	Button	By clicking on this button, Physician will be allowed to edit the expense saved. After clicking the button, they can edit expense item and amount. Two new buttons Save and Cancel will be shown instead of Edit, Delete and View.
	Save	Button	By clicking on this button, Physician can edit their expense. After saving Edit, Delete and View buttons will replace Save and Cancel button.
	Cancel	Button	By clicking on this button, any edits done will be canceled and Edit, Delete and View buttons will replace Save and Cancel buttons.
	Delete	Button	By clicking on this button, physicians can delete the saved expense and they will be allowed to save different expenses for that day.
	View	Button	By clicking on this button, physicians can view uploaded expense bills.
	Finalize	Button	By clicking on this button, Physician can finalize their timesheet. After finalizing the physician cannot edit the timesheet. Approval request will be sent to admin.

**Note:** After submitting the timesheet, physician can see the saved timesheet values in Invoicing page. If still not finalized, then will show Finalize timesheet button to open this page and finalize the timesheet. But if the timesheet is finalized, then physician can only view the values.

Admin side:

Providers > Invoicing:

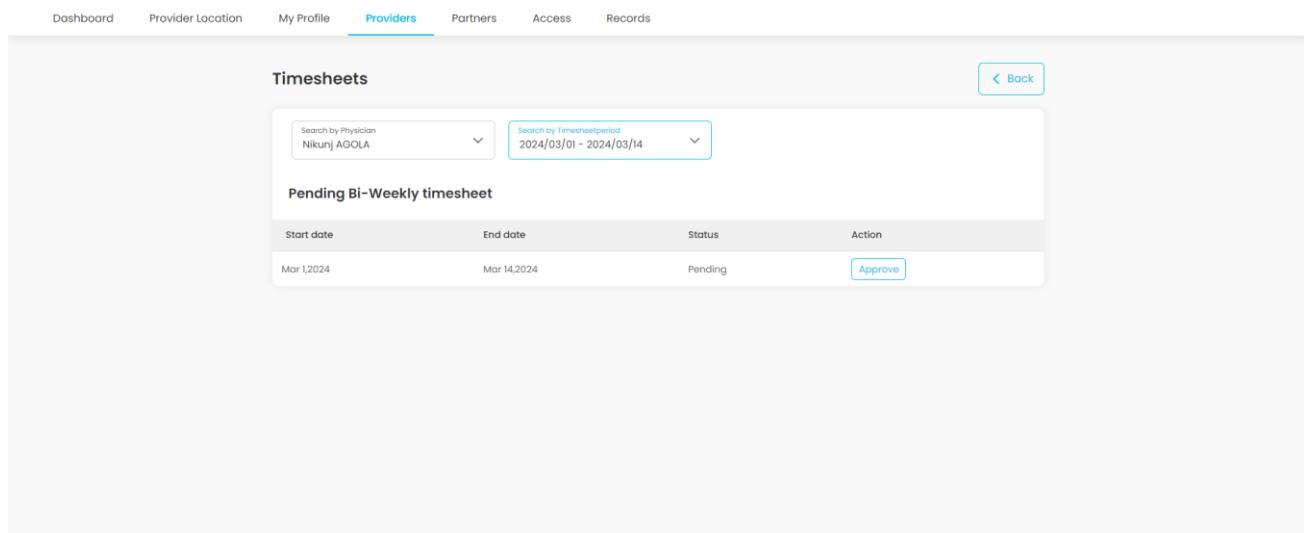

The screenshot shows the 'Invoicing' section of the provider details. The top navigation bar includes 'Dashboard', 'Provider Location', 'My Profile', 'Providers' (which is selected and highlighted in blue), 'Partners', 'Access', and 'Records'. A dropdown menu under 'Providers' lists 'Provider', 'Scheduling', and 'Invoicing', with 'Invoicing' currently selected. Below the menu are two search dropdowns: 'Search by Physician' set to 'Nikunj AGOLA' and 'Search by Timesheet period' set to '2024/02/15 - 2024/02/29'. A message at the bottom states: 'Nikunj AGOLA has not finalized the timesheet in specified time period.'

**Description:**

Using this page Admin can view Finalized timesheet of provider. Admin can get timesheet details using physician select list and timesheet period. By default, if provider has not finalized timesheet in specified time period this message will be shown:

"[Provider Name] has not finalized the timesheet in specified time period."

If the provider has finalized the timesheet but admin has not approved, it yet then it will be shown in pending timesheet section. In the Pending Bi-weekly timesheet section admin can view timesheet start date, end date and status. And by clicking on the Approve button admin will be redirected to approve bi-weekly timesheet page.

The screenshot shows the 'Pending Bi-Weekly timesheet' section. The top navigation bar is identical to the previous screenshot. The main area displays a table for a single pending timesheet entry:

Start date	End date	Status	Action
Mar 1,2024	Mar 14,2024	Pending	<a href="#">Approve</a>

If provider has finalized a time sheet and admin has approved it then the submitted timesheet values and reimbursements (receipts) will be shown.

**Description:**

Using this page admin can edit or approve the provider's finalized timesheet. This page is opened from invoicing page approve button in pending timesheet section. Admin can edit values of shift hours, Holiday/weekend, number of housecall and number of consult. Provider payrate is saved using provider payrate page which is opened from Edit provider page. Based on payrate and added values total invoice value is calculated.

Admin can also view the added receipts from Receipts section which can be shown or hidden using "Add Receipt" button.

**Features:**

#	Feature	Type	Description
	Payrate	Disabled input group	Admin can see provider payrate from this section. To update payrate, admin must use Provider payrate page opened from edit provider page.
	Invoice total	Disabled input group	The invoice total is calculated using payrate and entered timesheet values (Invoice total = Payrate x Timesheet value). First, calculations are done column-wise then the total value is calculated by summation.
	Bonus Amount	input	Admin can give bonus amount using this input field.
	Admin Description	input	Admin can enter description for timesheet or bonus.
	Approve	Button	Admin can approve the timesheet using this button. After timesheet is approved no one can edit that timesheet. Admin can see approved timesheet in Invoicing page.

## Provider Payrate:

### Physician Information

First Name Nikunj	Last Name AGOLA
